SOLUTION

- The portal comprises of 3 stages 1. **Advocate**, 2. **Judge** 3. **Super-Admin**
- The role of Advocate is to **register** in the portal. After successful registration Advocate can **submit the case** details meanwhile can **track submitted details**.
- Judge have to login to access the portal. The role of Judge is to **verify the submitted details by Advocate**. Moreover Judge can **approve or reject** with acceptable remarks
- Super Admin can access both Advocate as well as Judge. The work of super admin is to keep a watch on the submitted details. Super Admin can verify the details uploaded by the Judge.
- Dashboard with filters is provided which is helpful in searching based on **cases, year, city, court, advocate** category.
